

Professional adhesive coextruded high-performance weatherstrips for installation "do-it-yourself"

Adhesive coextruded high-performance drop-shaped weatherstrips with inner tube are designed to solve drafts, noises and thermal problems. This is a cheap and fast system to seal the perimeter of your old window. The strips can be easily sized with scissors and they are available in four different colours:

- brown;
- white;
- black;
- hazel.

- Designed to solve drafts, noises and thermal problems;
- The high quality material provides superior performance;
- Quick and easy installation, "do-it-yourself";
- Non-invasive;
- Self-adhesive, with high-quality adhesive;
- Resizable with normal scissors.

The installation instructions are provided in the package.

Other models and applications are available on our website www.roverplastik.it to the adhesive seals section.
